2. Customer Invoices

An example to work on: Aspen Medical Centre sends an order to your facility. They are doing an outreach tour to households in a nearby village and would like to collect some items to take.

The CUSTOMER is Ami CHC

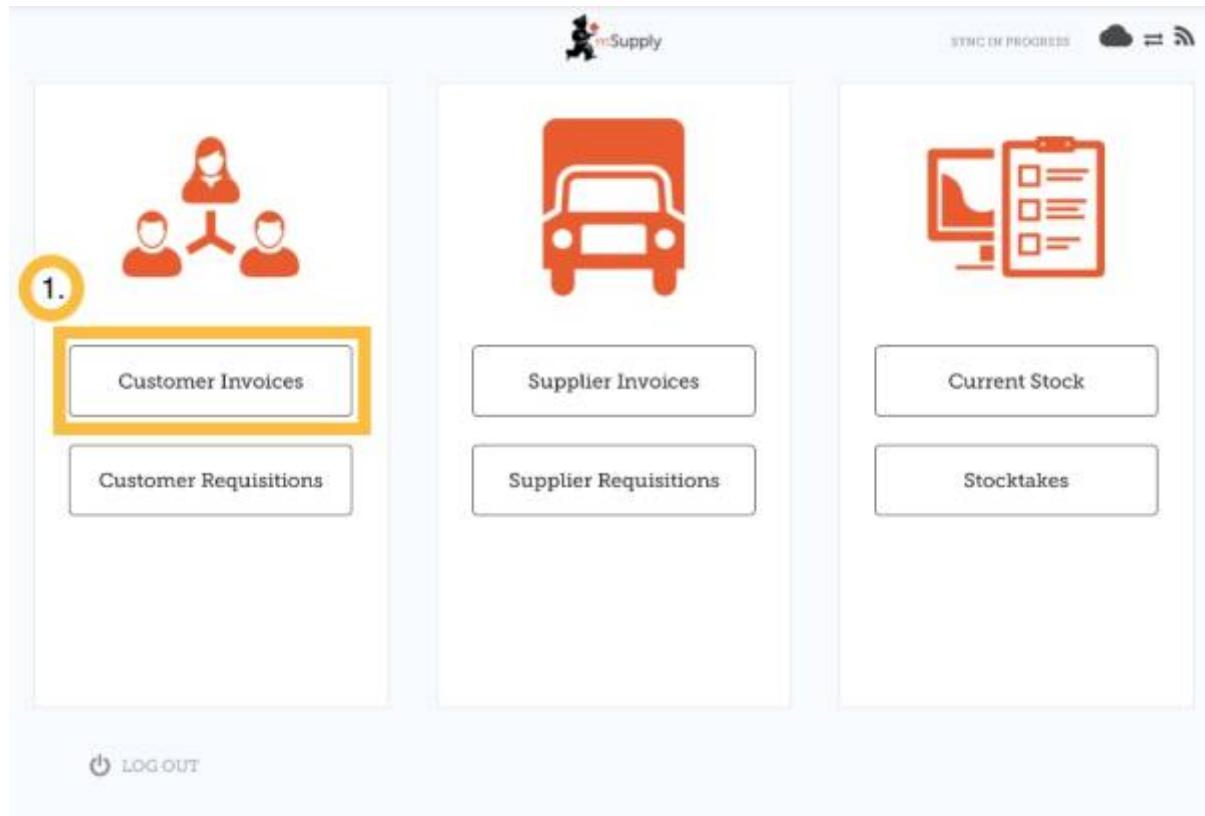

They have ordered:

- Amoxicillin 500mg tabs x 11
- Paracetamol 500mg tabs x 100
- Diazepam Injection 5mg/ml Amp/2ml x 50

Let's create a Customer invoice...

2.1. Click on Customer Invoices

The **Customer Invoice** button will bring up a list of invoices. If you haven't finished working on an invoice and you have not confirmed it, you can click on it now to bring it up and keep working on it.

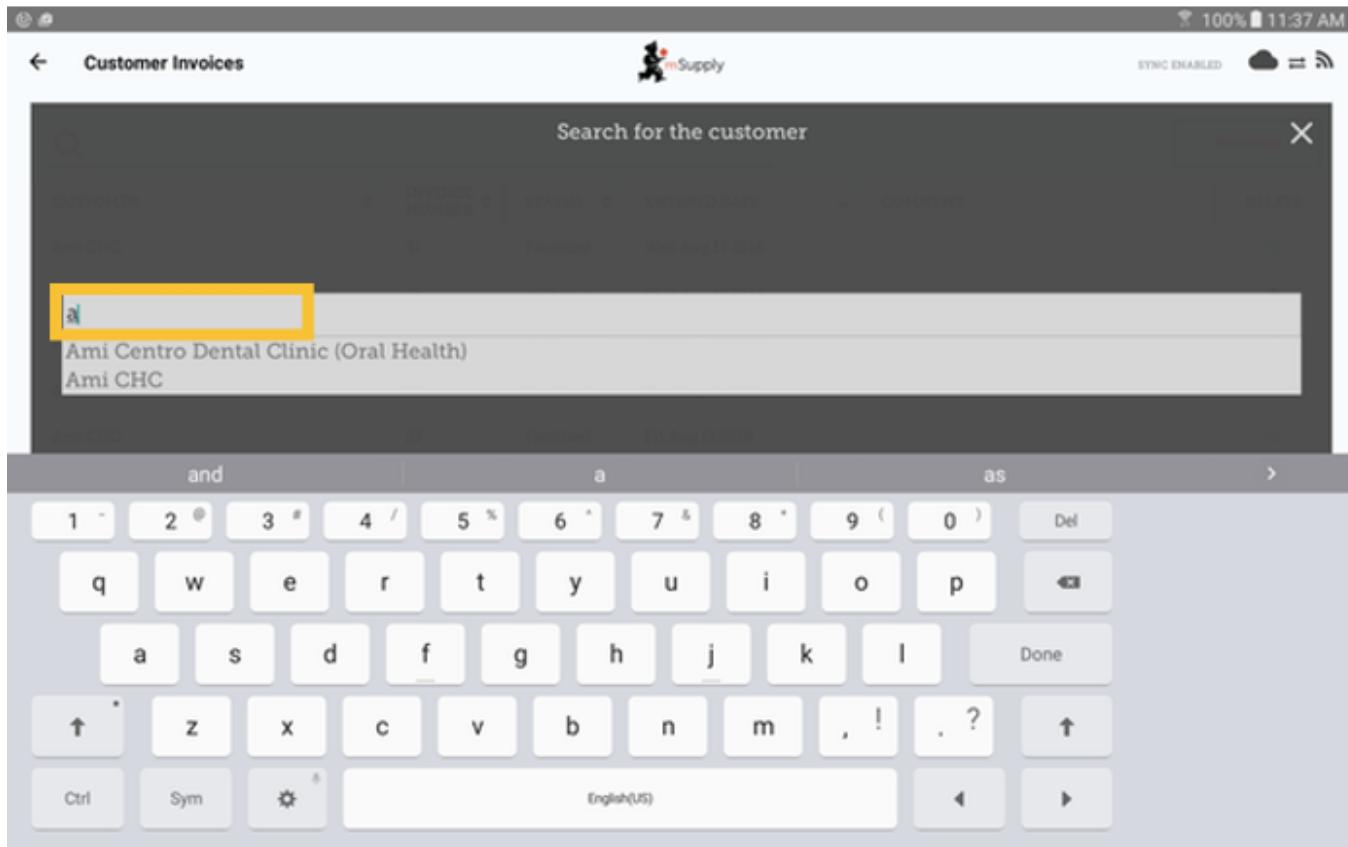

2.2. Start a new Customer Invoice

Click **New Invoice**'

The image shows the 'Customer Invoices' list screen. At the top, there is a back arrow, the text 'Customer Invoices', a logo, and a 'Sync Error, last sync 15.6.2017' message. A yellow circle with '2.' highlights the 'New Invoice' button, which is located at the top right of the list table. The table has columns for CUSTOMER, INVOICE NUMBER, STATUS, ENTERED DATE, COMMENT, and DELETE. The data shows multiple entries for 'Patients' with various invoice numbers and dates.

2.3. Add items to the customer invoice

You can add items to the customer invoice one by one - to do this, click on **New Item**

If you have a lot of items to add to the invoice, it can be slow to add them one by one. To add a lot of

items at once, click **Add Master List Items**.

Here you can see we have completed this invoice by adding the 3 items we need.

2.4. When you have finished

click the '**FINALISE**' button at the top, and then **CONFIRM**.

What is a Master List?

The Master List is a list of all the items available to you at your facility. The list is set by your supplier, and/or the Ministry of Health.
