

# Dispensing

Dispensing mode only shows if the store is configured correctly on the server. Read how [here](#)

## Patients

When you tap the **Dispensary** icon you will get a list of your patients. You can search for a particular patient using the field in the search bar.

TIP: you can search by first and last name by using a comma. For example: g, j will search for all patients whose last name starts with G and first name starting with J.

### Searching for a Patient ( on the server )

- If a patient does not exist in your current store, and you have internet access, you can search for the patient on the server
- Click the **Lookup patient** button

- You'll see a new window
- Enter some or all of the patient's first name, last name and/or date of birth and insurance policy number ( if used )
- Click **Search**

- You will see a list of patients which are configured on the server, but which are not in your local store
- If you see the patient you are looking for, click their name. This will copy their details to your local store and they will appear in your patient list

The screenshot shows the mSupply Dispensary interface. At the top, there is a search bar with the text 'pot' and a search icon. Below the search bar, there are two buttons: 'New patient' and 'Lookup patient'. The main content is a table with the following columns: CODE, LAST NAME, FIRST NAME, D.O.B, HISTORY, EDIT, and DISPENSE. The table contains two rows of data:

| CODE       | LAST NAME | FIRST NAME | D.O.B       | HISTORY | EDIT | DISPENSE |
|------------|-----------|------------|-------------|---------|------|----------|
| 0029/04/00 | Potter    | Harry      | 18 Feb 2000 |         |      |          |
| LP         | Potter    | Lily       | 1 Dec 1982  |         |      |          |

- Note though, that you cannot edit this patient. This is indicated by the book icon in the edit column, rather than the pencil which shows for your local patients.
- If no results are found for your criteria you will be shown a message. Try making your search more general, for example search just for the first letter of their name

### Adding a new Patient

- To create a new patient, tap the **New Patient** button.

### Patient Details

## Editing a patient's details

To edit a patient's details, tap the **edit** button at the end of the row for that patient. Easy!

## Viewing a patient's History

You can also view the history for a patient by tapping the **history** button.

| ITEM CODE | ITEM NAME                         | QUANTITY | PRESCRIBER  |
|-----------|-----------------------------------|----------|-------------|
| AR33197   | ABACAVIR / LAMIVUDINE 60/30 MG CP | 1        | James Smith |

## Prescribers

You can show, add and edit prescribers in just the same way as you do for patients.

Simply tap the "Prescribers" toggle button at the top of the window:

To edit a prescriber, tap the edit (pen icon) button for the row you wish to edit. You're then shown the prescriber's details:

### Prescriber Details

CancelSave

As for patients, only when you've entered all the required fields you'll be able to save the record.

## Dispensing to a patient

- Firstly, find the patient to dispense to (as above for viewing/editing a patient)
- Then click the **Dispense** button on that row.

Dispensing is a three step process. Each step must be completed before you can move to the next step

1. Step 1 you must select a prescriber by clicking on the SELECT icon
  - o NOTE: You can press the HISTORY and EDIT icons next to the patients name to edit the patients details or view their history at any time.
  - o You can filter the list using the search bar
  - o Once you have selected a prescriber, you can edit the prescriber at any time using the EDIT icon next to the prescribers name
2. Step 2: You must select an item to dispense by selecting the row on the left hand side. You can filter the items using the search bar

ABACAVIR / LAMIVUDINE 60/30 MG CP - 1

AR33197

Usage directions

Cancel Next

You can remove an item using the **X** button.

Type directions for the item into the directions text area.

Once you've updated the quantity, the Next button is available and you can continue to step 3.

Note that clicking cancel, or navigating away from this prescription will **DELETE** this prescription

The screenshot shows the 'Prescription 922' interface in mSupply. At the top, it identifies the patient as 'Joshua Griffin' and the prescriber as 'Jasmine McKewen'. The interface is divided into three steps: 1. Select the prescriber, 2. Select items, and 3. Finalise. A table lists various items with their codes, names, and quantities. A modal window is open for the item 'ARACAVIR / LAMIVUDINE 60/30 MG CP', showing its code 'AR33197', a quantity of 3, and a section for 'Usage directions'. At the bottom right, there are 'Cancel' and 'Next' buttons.

| CODE      | NAME  | QUANTITY |
|-----------|---|----------|
| AR33197   | ARACAVIR / LAMIVUDINE 60/30 MG CP                             | 36       |
| AM18232-0 | ACIDE FOLIQUE 5 MG CP   | 1        |
| AM12040   | ACIDE NIFLUMIQUE 400 MG SUPPO                                 | 3        |
| AM03065-0 | ACIDE TRANEXAMIQUE 500 MG / 5 ML AMP INJ                      | 8        |
| AR47015   | AIGUILLE POUR PRELEVEMENT 21G                                 | 16       |
| AR47016   | AIGUILLE POUR PRELEVEMENT 23G                                 | 30       |
| AM02090-0 | ALBENDAZOLE 400 MG CP   | 4        |
| AM02090   | ALBENDAZOLE 400 MG CP   | 96       |
| AY02020   | AMODIAQUINE/ARTESUNATE 100/270 MG ADULTE PLG/6 CP             | 20       |
| AY02015   | AMODIAQUINE/ARTESUNATE 100/270 MG ENFANT (6-14 ANS) PLG/3 CP  | 3        |
| AY02027   | AMODIAQUINE/ARTESUNATE 25/67.5 MG ENFANT (0-51 MOIS) PLG/3 CP | 27       |

1. Step 3: You can view the final results of the prescription and add any other details such as a comment.

Tapping the **Complete** button will finalise the prescription. That means that it's locked- you can't edit it any more.

That was easy!. If you've enabled payments, you can go to the next step to receive payment. If not, you'll continue and dispense the next prescription.

## Payments

The payments module needs to be configured on the server, so if it's turned off, you won't see it. Configuration instructions are [here](#) The 2 configuration settings that must be set to “true” are:

- usesDispensarymodule
- usesPaymentsmodule

Once enabled, when you arrive at the summary page where you check the details of a prescription, you will be shown a payment summary and each item will show its price:

The dropdown list under the “Payment” allows you to select the type of the payment. (Types are configured on the server).

- The **Payment Amount** is the amount the patient is paying
- If they have any available credit, this will be listed under the **Payment Amount**
- There can only be a **Payment Amount** less than the **Total**, if the patient has sufficient available credit to cover the difference.
- The amount of credit is shown under **Credit Used**
- The change required is the amount of change to give to the patient
- It is only possible to finalise a prescription when payments are enabled, when the payment amount is a valid value

Here's an example if the patient doesn't have enough credit:

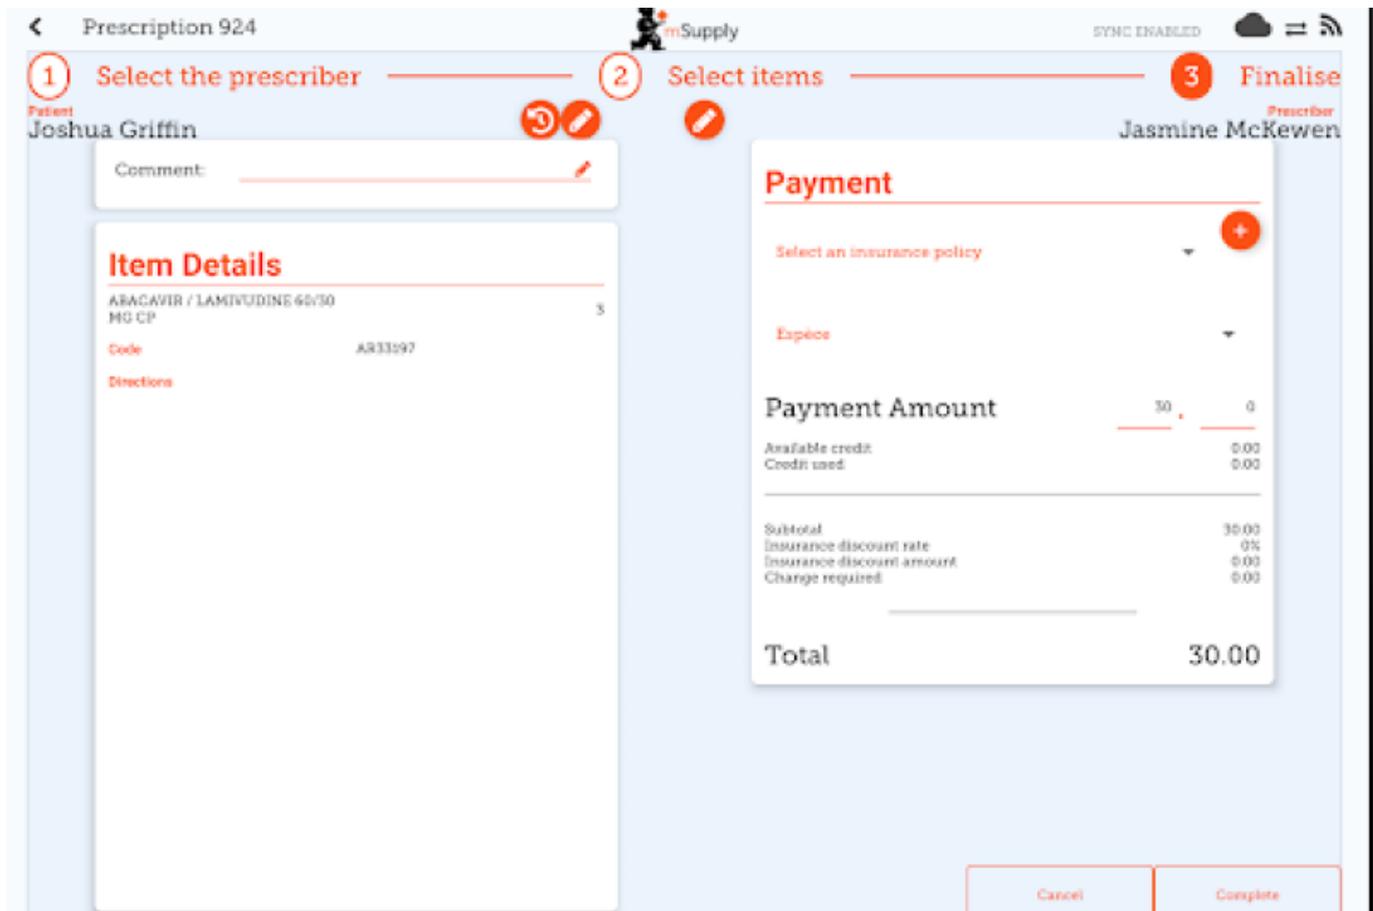

And here's an example of where the payment gave you more in cash than the amount to pay, and you need to give them back change:

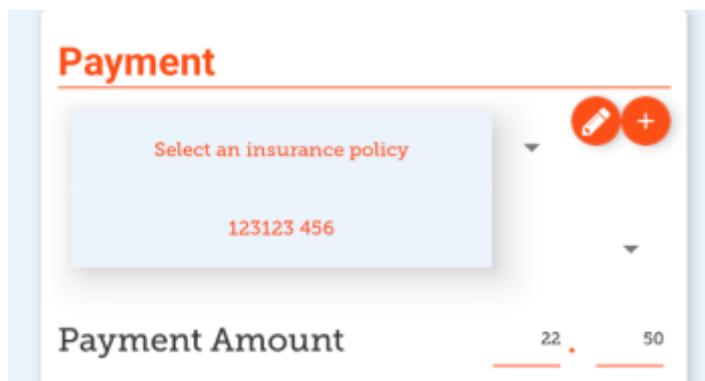

## Insurance

If the server has insurance providers enabled, the mobile store will also.

This will enable the insurance drop-down list and the **add** button (The orange “plus” button to the right):

When entering the payment details, if the patient has an insurance policy, you can select it from the drop-down list:

You can use the **Edit** (the “pen”) or **Add** (the “plus”) buttons to add or edit insurance policies.

If you click the **Add** button you can add an insurance policy:

Insurance Policy

Personal policy number  
is required

Family policy number  
is required

Discount rate

25

Policy provider  
ALLIANCE

Is active

yes

no

Policy type

Personal

Business

Cancel Save

The **Save** button is only enabled when you've entered a valid value in each field that is labelled as "required".

If you have set up transaction categories on the server, then you'll be able to choose one at the top left of the window:

Maternity
