

User Guide - mSupply Mobile

The Mobile Dashboard

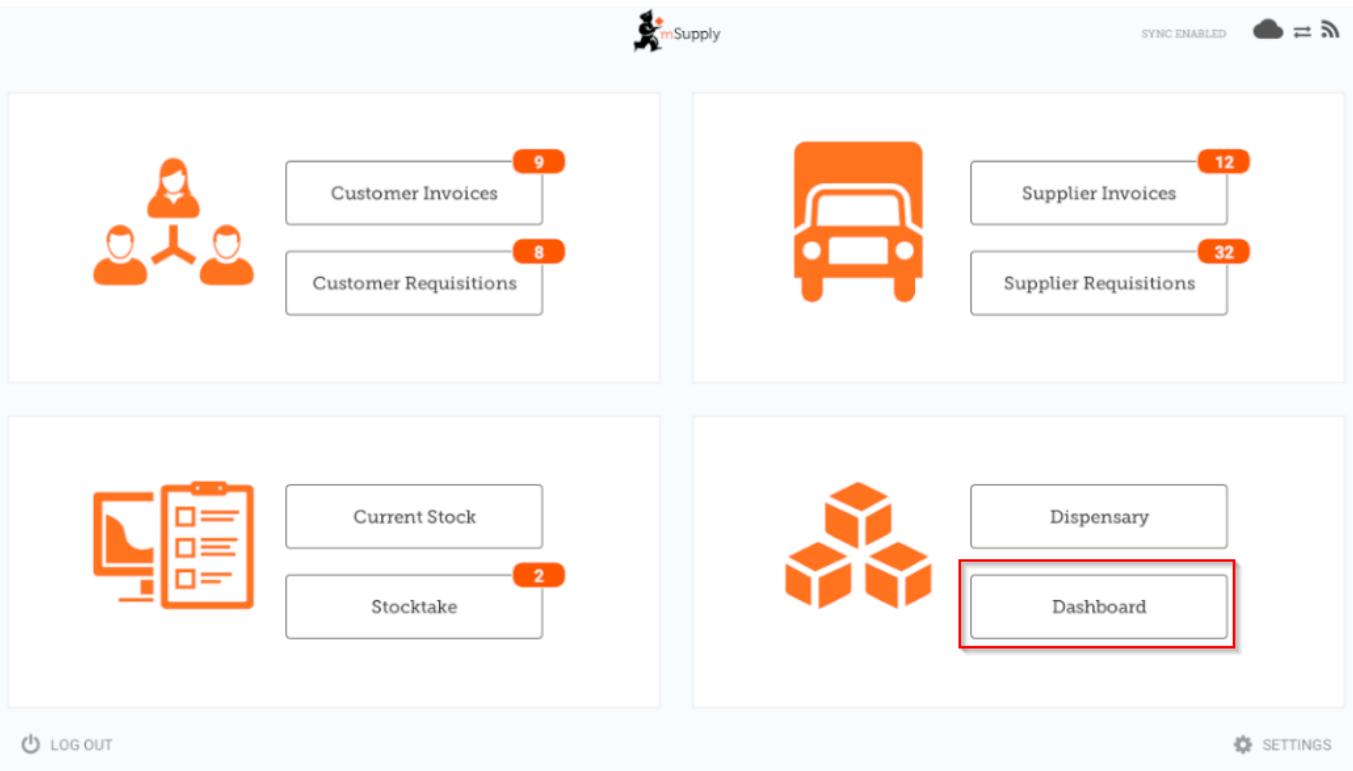

The Mobile app dashboard is completely different to the [mSupply Grafana web dashboard](#) and is configured in a different manner.

Dashboard reports will be visible in the mSupply Mobile dashboard provided that on the mSupply central server:

- The **mobile: Uses dashboard module** [store preference](#) is turned on for the store
- The report has been [configured for display on mSupply Mobile stores](#)

Once it has been enabled you will be able to see the Dashboard icon on the mSupply Mobile Menu page.

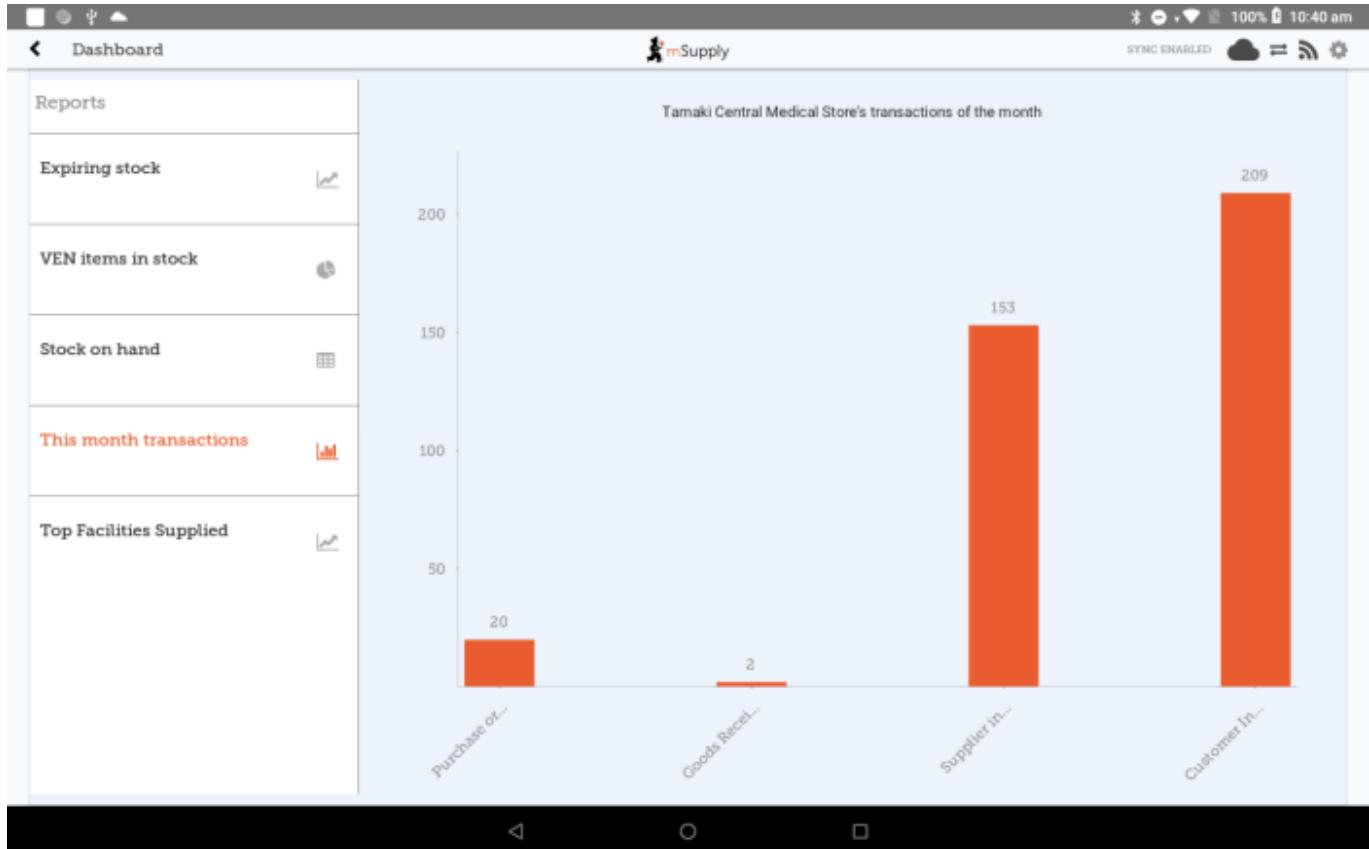

The Mobile Dashboard feature allows you to view visualisation 'reports' (tables, charts, graphs, etc.).

The screenshot shows a mobile application interface for mSupply. At the top, there is a navigation bar with icons for back, home, and search, followed by the 'mSupply' logo and a 'SYNC ENABLED' status. The main area is a table with the following columns: 'Reports', 'Item code', 'Items', 'VEN', 'Stock on hand', 'Monthly consumption', and 'Months cover'. The table contains data for various medical supplies, including Diazepam, Acetylsalicylic Acid, Amoxicillin, Artesunate, Bandage, Benzyl penicillin, Captopril, ChAdOx1-S vaccine, Clofazimine, and Cloxacillin Sodium. The rows are color-coded by category: Reports (light blue), Expiring stock (light green), VEN items in stock (light blue), Stock on hand (light green), This month transactions (light blue), and Top Facilities Supplied (light green). The data shows current stock levels, monthly consumption, and the number of months the current stock will last.
