

# mSupply Mobile Demo

We now have a server setup for users to try out the mSupply mobile application.

Firstly, download and install the mobile app from here: [Mobile App](#)

The mSupply Mobile demo site is now hosted on: <https://demo.msupply.org>

## Request a Demo Store

The image shows the mSupply mobile application interface. At the top, there is a logo featuring a stylized figure holding a cross, followed by the text 'mSupply'. Below the logo, there are three input fields: 'Primary Server URL', 'Sync Site Name', and 'Sync Site Password'. Each field has a red underline. Below these fields is a 'Connect' button with a cloud and Wi-Fi icon. At the bottom, there are two orange buttons: 'Request a Demo Store' and 'Import Data'. The version number 'v811' is displayed at the very bottom.

After starting mSupply mobile on the Android tablet, you will see a screen like the above for the first time. Click on the “Request a Demo Store” button to request credentials for the new store.

## Enter your details

A screenshot of a mobile app registration form. At the top is the mSupply logo, which features a stylized figure holding a plus sign. Below the logo, the text reads: "Request a demo store. Your email will be used for verification purposes and for notification when your demo store expires". There are four input fields with red labels: "User Name", "E-mail Address", "Password", and "Please re-enter password". At the bottom of the form is a grey "Submit" button. The entire form is enclosed in a light blue border with a close button (X) in the top right corner.

On the above screen a unique user name, a valid e-mail address and password are required. Please note down the password as this will be needed later. Our mSupply mobile username and password guidelines are available [here](#)

## Check your e-mail

The mSupply Demo server will e-mail you and expect you to click the link to activate your Mobile store.

Please check your junk e-mail if you do not see the e-mail.

## Setup your Mobile Store

You should now be able to setup your store.

- Your store name will be in the format: Username\_store. Note that the demo server adds the "\_store" to signify store setup.
- The password for the store credential will be in the format: "Username\_store\_Site". Note the capital letter in the text "Site".
- The URL must be: <https://demo.msupply.org>

If the credential of your mobile store has been entered properly then your table will start to retrieve data from Demo server. Please wait until the procedure is finished. We expect this to take no more than 5 minutes.

## Login as a User

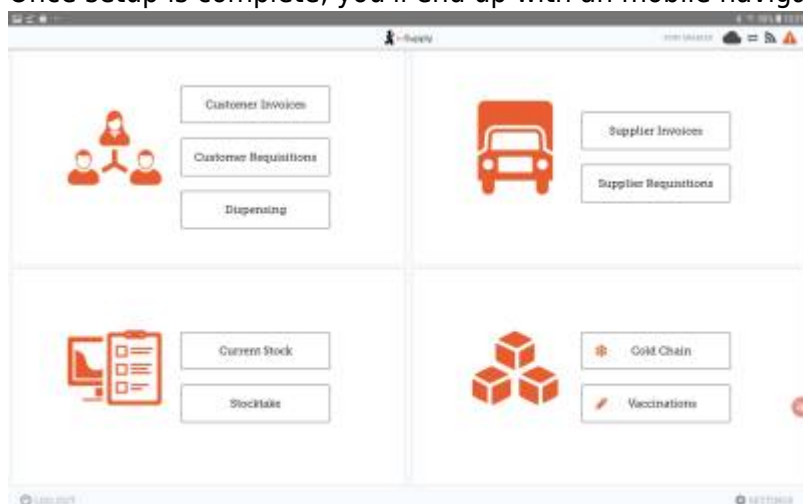

You may log in as a user once the store setup has been completed. You will be shown a login window.

- This time the user name is what you initially typed. So just UserName.
- Password is what you originally typed when requesting a Demo site.

## Using the module(Vaccination)

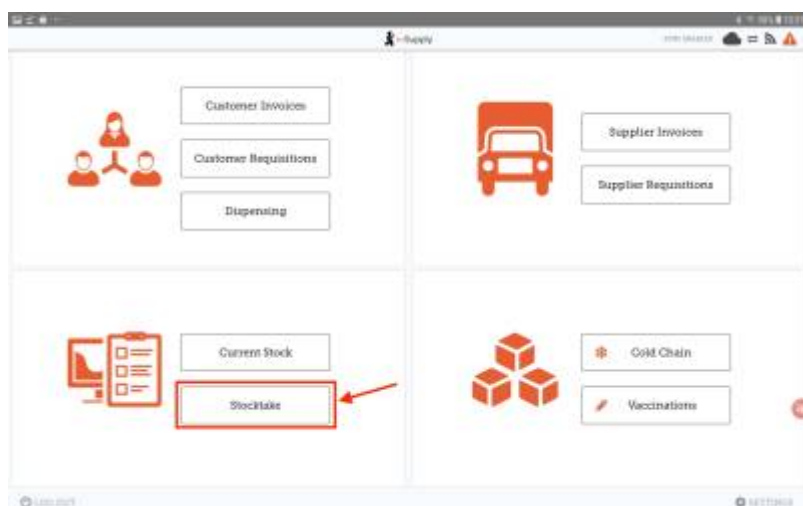

Once setup is complete, you'll end up with an mobile navigation screen that looks like this:

## Vaccination module

To use Vaccination module, you must carry out a stock take:

- Click on Stocktake

- Create a New Stocktake by clicking on “New Stocktake” button.
- Search item “Astrazeneca covid vaccine” from the list, select it.
- Give your stocktake a name at the bottom and click on “Create” button.
- Enter any value(greater than 0) in Actual Quantity field and hit the “FINALISE” icon.
- Go back to navigation screen and click on Vaccinations module.
- Now you should be able to can see Search Patient lookup window as first step.

Good luck, you may now search a patient and carry out a vaccinations.
