

What is mSupply Mobile?

- Provides electronic inventory control for medical stock
- mSupply Mobile is a synchronised single-user configuration, but the users operate with mSupply Mobile (client) software on Android tablets
- User-friendly, offline-first mobile app for use with mSupply
- Local stock details are synchronised back to your organisation's primary server, and can be monitored and reported from there
- Further details and source code available on [github](#)
