Vaccination Monitoring Dashboards

If you are using mSupply mobile for registering participants, dispensing vaccines, and recording adverse events, then you need a mechanism to report on all this information, and to manage your program. The mSupply dashboard is your friend. We have created a series of dashboards specifically for these tasks. Here's an example

Here the dashboard shows a list of people needing to be contacted for their 2nd dose (This can be exported to excel and uploaded to an SMS sending service to send a reminder)

Patients ☆ ⤴

People due for second dose			
Name	location	Date 1st Dose	Mobile #
Smith, Joe	Kolonga	01/04/2021	2984723
Peters, Sione	Vava`u	03/04/2021	9834721
